Writing & Reading

PROFILE

Experienced Software Engineer with a demonstrated history of working in the computer software industry. Skilled in HTML, CSS, JavaScript, Vue.js, Angular.js, PHP, Laravel, Technical Writing and a quality hands on experience as an Instructor. Strong engineering professional with a Master's degree in 2020 focused in Computer Software Engineering from University of Ibadan.

WORK EXPERIENCE

CROWNBIRTH TECHNOLOGIES - Full Stack Developer
October 2018 - Present

Presently, I work in the Software Team (Programming Unit) at Tai Solarin University of Education, Nigeria. TASUED is the first premier tertiary university of education in Nigeria. TASUED is a highly ranked institution that boast of an amazing student and staff record performance in recent years.

I partake in overseeing the full stack development functionality which involves user interface design, markup structuring, hypertext preprocessor function and writing of structured query languages.

My line of reporting is directly to the Team Lead and the Director of the project.

TIZYCORP TECHNOLOGIES – Frontend Developer

January 2018 – Present (Remote)

As a software developer at TizyCorp, I majorly work as a front end developer and vast with HTML, CSS, JS. I work remotely and most of the time with teams where we get to communicate via version control tools like Github and Bitbucket. TizyCorp technologies is located in the heart of Lagos. I make sure the company/ client project met market demand and properly designed to meet various demands from end users.

KASHIVA ENTERPRISE LIMITED – Web Developer Coach

March 2018 – July 2018

While working with Kashiva, I worked extensively for the company by helping to mentor and instruct students who were coming into the field of web development. I effectively prepared material to help them study and constantly guide them to adopt industry best practice.

During my stay at Kashiva students learnt front end technologies like HTML, CSS, JS and server side PHP, NODE and towards the end of the mentorship program our students got accepted into the Google Africa Scholarship program.

CERTIFICATION

- Google Africa Web Specialist Scholarship Awardee.

- Freecodecamp Certificate of Completion.
